

TEi wins 3 year contract for Centrica HRSG Power stations throughout the UK.

TEi Ltd have been awarded the contract - 1st October 2008 - for the mechanical maintenance and all outages on all Centrica HRSG Power Stations.

Killingholme, South Humberside, Glandford Brigg, Barry, Kings Lynn, Peterborough, Rosecote.

This order was won after a long competitive bidding process and TEi and Centrica PLC are committed to a save working partnership for the next 3 years.

Staff and labour from TEi's regional offices in Northumberland, Aylesford and Cardiff will assist the Wakefield team to ensure our new client is fully satisfied.

Petroplus Refinery at Coryton - Essex have awarded TEi a contract - 1st October 2008 - for the disinvestment and complete rebuild of their waste heat boiler.

Disinvestment will start immediately with start up and commissioning scheduled for 3rd quarter 2009.

TEi's design team in Ruislip provided design and engineering assistance to the Southern Region Operations Group who will be responsible for running this important contract.

This refurbished boiler will allow Petroplus to significantly reduce the cost of importing natural gas, presently used to supplement firing on the main refinery boilers.

Waste heat, at present going up the stack, will be used to provide steam in the refurbished boiler.
