

QUALITY POLICY

TEI Limited is engaged in the business of design, manufacture, installation and repair of steam generating plant, process plant, piping and a wide range of ancillary equipment.

This policy applies to all business areas throughout the organisation.

It is TEI's paramount objective to provide a first-class service and product to its customers by the safest and most economical means at all times.

The purpose of this policy is to confirm that commitment to meeting the quality standards expected by TEI's customers in the delivery of the products and/or services that are supplied.

This will be achieved by continued commitment to the Integrated Management System based on the requirements of ISO 9001: 2000

The Quality objectives are to:

- Use the Quality Management System as a tool in achieving best practice outcomes across the organisation;
- Seek continuous improvement and profitability to provide customer satisfaction.

To implement this policy the Company shall focus on the needs of its business with particular reference to consistently meeting customers' requirements and statutory obligations. The quality management system will provide mechanisms for detecting system shortfalls and for stimulating process improvements.

Procedures and disciplines will be adopted to ensure that:

The system is effectively implemented by undertaking relevant skills training and conducting appropriate Quality awareness training; Responsibilities for Quality are established by communicating these responsibilities clearly to all employees;

The policy and procedures will continue to be appropriate by initiating regular reviews to check their effectiveness and ongoing relevance, and the company will regularly review the needs and expectations of customers and initiate continuous improvement activities to meet these expectations.

ENVIRONMENTAL POLICY

TEI Limited is engaged in the business of design, manufacture, installation and repair of steam generating plant, process plant, piping and a wide range of ancillary equipment and as such recognises and accepts that concern for the environment is an integral and fundamental part of the company's corporate business strategy.

The company will seek actively to reduce its impact on the environment to the lowest practicable minimum, by recognising its responsibilities through a proactive policy on safety at the workplace, control of pollution and care for the local environment. Any threat of pollution from its activities and procedures will be identified and either eliminated or effectively controlled. The company shall endeavour to work towards the following objectives:

- Comply with applicable environmental legislation, regulation and with other requirements to which the company subscribes which relate to any environmental aspects;
- Provide for the communication of the environmental policy to all employees and sub-contractors and externally to all interested parties, on request.
- Provide for the setting and achievement of environmental objectives and targets for the Company, and secondly for the publication of the environmental objectives and targets by the posting of the document in the Company.
- Maintain efforts to achieve continual improvement in the environmental performance of the Company, the starting point is to comply fully with the requirements of ISO14001: 2004.
- Incorporate appropriate training and instruction, in relation to environmental management and responsibilities, into the company's in-house training programmes.
- Ensure plant and systems of work are designed and maintained to the highest possible standard in order to minimise incidents and unforeseen occurrences. The company will endeavour to work closely with the relevant statutory bodies to meet all applicable legislation and improve operating procedures.
- Foster openness, dialogue and discussion with employees, customers, suppliers, contractors and all interested parties regarding the environmental performance and objectives of the Company.
- Measure environmental performance by conducting regular environmental audits and assessments of compliance with the environmental policy, relevant environmental legislation and requirements of the company.
- Communicate this policy to all persons working for or on behalf of the Company.

HEALTH AND SAFETY POLICY

It is the Policy of TEI Ltd, so far as is reasonably practicable, to ensure that the responsibilities for health and safety are properly assigned, accepted and fulfilled at all levels of the company, and that all practicable steps are taken to safeguard the health, safety and welfare of all employees and others who may be affected by TEI's operations and activities.

TEI Limited is engaged in the business of design, manufacture, installation and repair of steam generating plant, process plant, piping and ancillary equipment. The Directors of TEI regard the promotion of health and safety measures and appropriate programmes to maintain a healthy environment as a mutual objective for management and employees at all levels. Therefore TEI's policy is to do all that is reasonable to prevent personal injury and damage to property and to protect staff and the general public from foreseeable work hazards.

It is the intention of the company, so far as is reasonably practicable, to ensure that:

- The provision and maintenance of plant and systems of work are safe and without risks to health.
- Arrangements for use, handling, storage and transport of articles and substances for use at work are safe and without risks to health.
- Adequate information is available with respect to articles and substances used at work detailing the conditions and precautions necessary to ensure that when properly used they will be safe and without risks to health.
- The provision of such information, instruction, training and supervision as is necessary to secure the health and safety at work of all employees.
- The working environment is safe and without risks to health and that adequate provisions are made with regard to the facilities and arrangements for everyone's welfare at work.
- The Health and Safety Policy is appraised and updated as and when necessary and is communicated to all employees

It shall be the duty of every employee at work:

- To take reasonable steps for the health and safety of themselves and of other persons who may be affected by their acts or omissions at work.
- As regards any duty or requirement imposed on his employer (or any other person) by or under any relevant statutory duty, co-operate with the company so far as is necessary to enable that duty or requirement to be carried out.

TEI Ltd. operates a health and safety management system in accordance with the requirements of OHSAS18001: 2007. This system will be used to ensure that health and safety management is given the attention and resources that it deserves. Health and safety is viewed as a core business value within TEI Ltd. The Company is committed to complying with legislative requirements and industry requirements as a minimum standard. We will use our health and safety management system to continually improve our health and safety effort and to strive for zero accidents. This system will be continually reviewed and updated.

An Executive Safety Committee reviews and oversees the safety policy of the Company. An annual review procedure, monitored at Board Level, will ensure that the general procedures and policies herein are implemented and maintained.
